

# SASCO

## HIGH PERFORMANCE PACKAGING

We are a European family enterprise working efficiently to produce individual and Specialized Papers.

We can offer many different paper materials as well as meet the specific requirements in special orders of customers.

Our products and services combine the traditional values of reliability and consistent quality, along with highly specialized and innovative expertise.

We continuously develop new products to meet our customers' high demands and expectations. Therefore, we gladly work together with our customers to develop partnerships. In addition to priorities for a constantly high product quality and excellent processing properties SASCO IMPEX LTD embraces ecological values such as the ability for a product to be recycled or naturally biodegrade, and to procure raw materials from natural and sustainable sources.

Our Philosophy since our establishment is based on the principle that our customers, from the smallest to the largest, deserve the maximum possible service and attention as well the best products in their field.

All production plants are professionally managed by industry professionals and undergo continuous strict audit and approval processes to ensure they are operational to the highest level of health and safe ethics, environmental and quality standards globally.

We operate a high level of flexibility and can manage any logistical challenge that presents itself shipping products all over the world.
